WHISKEY MAIZ NATION

100% SOLAR POWER ☀️ 100% RAINWATER

Maíz Nation is a whiskey rooted by terroir. It showcases the work of Native farmers throughout Oaxaca, helping bring attention to their traditional cultivation methods of corn and other grains. Beyond the classic definition of sense of place, it supports the notion that terroir encompasses community, families, and history, which ultimately shape culture.

The corn varieties used to make their Native Corn Whiskey have been cultivated over 6,500 years and are a part of what shapes regional identities. The whiskey enjoyed from these bottles benefits farming practices that utilize soil conservation and community seed banks, which in turn promotes food sovereignty.

DRINK TO ENJOY, ENJOY TO PRESERVE

SolCraft Distillery

The solar distillery of Oaxaca & home of Maíz Nation

THE FIRST WHISKEY IN THE WORLD TO BE MADE 100% OFF-GRID

Powered by 100% solar energy

Mashed & proofed with 100% collected rainwater

Processing of 100% of stillage back to clean water

Daily operations save energy through gravity assisted workflow, high efficiency thermal jackets for mashing & distilling, & a low amperage Austrian grain mill.

All stillage is treated by a multi-step system that includes de-acidification pools, an aerated algae pond, rhizome filtration system, and solar evaporator that returns clean, pH-neutral water to the local ecosystem.

All the water used for the facility is collected from rainfall & stored in large underground cisterns.

This is the most environmentally ideal distillery & aims to act as a resource of education for all distillers.
